

## **REMARKS**

The Examiner has issued an Official Action requiring restriction between three groups of inventions. The groups identified by the Examiner are:

Group I: Claims 1-22 drawn to treating various diseases mediated by the endocrine system by administering various acetylcholinesterase inhibitor compounds.

Group II: Claim 23 drawn to therapeutic compositions of matter containing various acetylcholinesterase inhibitor compounds; and

Group III: Claim 24 drawn to the use of various acetylcholinesterase inhibitor compounds.

Applicants respectfully traverse this restriction requirement.

However, to expedite prosecution applicant elects the claims of group I- Claims 1-22.

Applicant identifies the disease as clomiphene-responsive ovulation stimulation in women and for improvement of oligospermia or aesthenospermia in men. Support for this is found throughout the specification, *inter alia*, on page 1, lines 6-7; page 3, lines 14-15; page 9, lines 16-19 and page 11, lines 14-23.

Claims 1, 2, 3, 7, 8 and 11-24 read on this disease/condition.

Applicant preserves all rights to file one or more divisional applications directed to the subject matter of the nonelected claims and any other subject matter disclosed in this application.

Applicant submits that the present application is in condition for allowance and favorable consideration is respectfully requested.

Respectfully submitted,

A handwritten signature in black ink, appearing to read "Janet I. Cord", written over a horizontal line.
